American Health Lawyers Association
Health Care Compliance Association
National Alliance of Medical Auditing Specialists
National Health Care Anti- Fraud Association

Alicia has more than 35 years of clinical and administrative healthcare experience. Her areas of expertise include revenue cycle integrity, documentation and coding, medical auditing, billing processes, practice management, and compliance.

Alicia provides advisory services to attorneys, healthcare administrators, providers, and organizations. She frequently works with business litigation and health law practices on fraud and abuse intervention and providing independent and objective assessments for both plaintiff's and defense teams.

She leads a team of advanced, talented certified coders and auditors and works closely with clients on both routine and complex documentation and coding reviews. She provides in-depth analysis, education, and assists providers with identifying and mitigating risk of improper payments.

Alicia has served as the Director of Compliance for a national healthcare association, the American Academy of Professional Coders (AAPC). She has held several Director of Coding and Compliance positions and was a Family Practice Administrator for over a decade.

Alicia has presented educational training boot camps and seminars nationally on compliance, documentation and coding, and practice management. She was a medical billing and coding instructor. She is a frequent author for online physician blogs, and journals.
